

Introduction to Offshore Diving

16th & 17th November 2006

The Underwater Centre Fremantle (TUCF)
8 Rous Head Road, North Fremantle

This course has been designed by the Underwater Centre Fremantle, to introduce engineers and other interested professionals to offshore diving operations.

The objectives of the course are as follows:

- To introduce the various codes, standards and regulations relevant to diving and ROV operations offshore.
- To introduce different diving techniques and illustrate the abilities/limitations for each.
- To display typical diving and ROV equipment to ensure familiarity.

The course allows those participants with recreational diving qualifications to undertake dives in a decompression chamber and on surface supplied equipment (in both the pool and ocean). Each student who wishes to dive will be required to meet the following prerequisites prior to diving on the course:

- PADI Open Water Diver or approved equivalent.
- 18 years of age
- Medically in date.

Diving participants will be required to complete:

- PADI Medical Statement.
- TUCF Statement of Understanding.

Non-divers can experience surface supplied equipment in the pool. However, they will be required to complete a Medical Statement, and Statement of Understanding
