| <input type="checkbox"/> Offshore structures | <input type="checkbox"/> Underwater vehicles |
| <input type="checkbox"/> Other (list) | <input type="checkbox"/> Marine renewable energies |

SUT Representative

One member of staff should be nominated to be your organisation's key representative to SUT, e.g. with voting rights.

Name _____ Email _____

Named Members *

Named members, up to the number stated above for your membership category (total including your SUT representative) will be sent circulated SUT material. Please provide a list of chosen names with contact details (including email addresses) for inclusion to the SUT mailing list. (Non-named company staff will have reduced admission privileges to events.)

Payment

Your company, after receipt of this form, will be invoiced for a sum agreed with the Membership Secretary. The SUT membership year begins on 1 July and halved subscription rates apply to applications made after 1 January.

For further information please refer to our website www.sut.org.au

Or Contact the Membership Secretary

Becky Wong, PO Box 6227, Chapel St North, South Yarra VIC 3141

Email: Melbourne@sut.org

SUT

Australasian Perth Branch

What is the Society for Underwater Technology?

SUT is a multi-disciplinary learned society that brings together organisations and individuals with a common interest in underwater technology, ocean science and offshore engineering. It was founded in 1966 and has members in more than 40 countries, including engineers, scientists, other professionals and students working in these areas. The Society promotes further understanding of the underwater environment and encourages:

- Cross-fertilisation and dissemination of ideas, experience and information between workers in academic research, applied research and technology, industry and government.
- Development of techniques and tools to explore, study and exploit the oceans
- Proper economic and sociological use of resources in and beneath the oceans
- Further education of scientists and technologists to maintain high standards in marine science and technology.

SUT Interest Areas

The Society considers all aspects of technology applied to:

- Diving technology and physiology
- Environmental forces
- Geology/geotechnics
- Marine pollution
- Marine renewable energies
- Marine resources
- Oceanography
- Offshore engineering
- Submersible design
- Subsea systems
- Underwater acoustics
- Underwater robotics
- Underwater science

SUT's Corporate Members

More than 100 industrial and commercial organisations, research establishments, government departments and academic institutions reflect their interest in areas of underwater technology by becoming Corporate Members of SUT. The Society offers communication and specialist information, focused in events, publications and special interest groups – a member organisation can involve its key employees in any of these activities and enjoy all the benefits.

Benefits for Corporate Members

The Society for Underwater Technology offers enhanced communication with other companies, government, organisations and individuals working in specialist disciplines of underwater technology. You will enjoy the benefits of:

- Networking through branch membership, regular meetings and events and at overseas branch locations, courses, seminars and conferences on topical subjects for everyone from top executives to new graduates and students.
- Participation in specialist groups with representatives of industry, academia and government, as well as other individuals, addressing subjects within the SUT interest areas.
- Up-to-date information on developments in technology, engineering and science posted on the SUT website www.sut.org.au or www.sut.org and in regular mailings of events details, the SUT journal Underwater Technology and the members' newsletter – also more than 35 volumes of conference proceedings and collected abstracts or papers from seminars are available.
- Membership directories of both individual and corporate members in the SUT members' Yearbook that enable informed access to other members – a free detailed listing for your organisation will be included in the printed Corporate Members' Directory and on the SUT website, incorporating links into your organisation's website.
- An extensive programme of events including conferences, seminars, evening meetings, discussion forums, technical visits, workshops and courses – all of which are relevant to CPD.
- Significant discounts for all your organisation's staff on fees for SUT and co-sponsored events, publications and advertising
- Use of reference facilities at the IMarEST (Institute of Marine Engineering, Science and Technology) Information Centre
- Publicity for your organisation through sponsorship of evening meetings, seminars and SUT annual awards for achievement and excellence in an area of underwater technology, ocean science or offshore engineering.

Terms of Participation in SUT

Corporate Members assign one staff member to be their SUT representative who is the main point of contact for membership administration purposes and who votes on behalf of the organisation in SUT elections. Multiple named members of staff, between 6 and 15 depending upon the organisation size, will regularly be mailed SUT literature. There is, however, no limit to the numbers of staff who can enjoy the corporate benefits of discount and participation in SUT activities.

Membership Subscription Rates

Subscription rates for Corporate Membership of SUT are defined according to the size of the organisation and the number of technical, scientific and managerial staff with an involvement in underwater technology, ocean science and offshore engineering. The category is agreed by discussion between the Society and the organisation, following proposal of a category by selection from the list on the application form
