

Subsea Controls Downunder

18th & 19th October 2011

Perth, Australia

ANNOUNCEMENT AND CALL FOR PAPERS

This international conference in the field of Subsea Controls and Umbilicals is aimed at those engaged in remote control and monitoring of subsea systems. This conference, is to be held from 18th to 19th October 2011 and provides a unique forum for the supplier and operator of subsea technology to exchange views and experiences.

The aim of this particular conference is to bring together the many diverse disciplines engaged internationally in Subsea Controls and Umbilical technology, to share experiences gained, current challenges, as well as new advances in technology.

Papers are invited on, but not limited to, the subject areas listed below. We are particularly interested in those papers that describe “recent advances and challenges in subsea technology”, thus providing a detailed insight into the design, operation and maintenance of subsea systems.

To expand on the seabed power and processing systems, there are now good examples of successful projects, such as Pazflor, Ormen Lange and Asgard. The SUT welcomes presentations covering future technology and ability to manage the system through Life of Field.

Advances in Technology

- Ultra Long Offset
- HPHT
- HIPPS
- High Speed Communications
- Hydraulic and Electric Distribution
- All Electric

Through Life Support

- Availability and Reliability
- Planned Obsolescence and “Mid Life” Updates
- Remote Access and Maintenance

Applications

- Smart Fields
- Historic Developments
- Carbon Capture, Storage and Renewables
- Standardisation

The SUT also welcomes papers on:

- Integrity, Availability and Reliability
- Best Practices
- Lessons Learned

Subsea Controls Downunder

18th & 19th October 2011

Perth, Australia

Abstracts should be no longer than 300 words and submitted by 1st May 2011 at the latest. Only those papers judged to be relevant and of sufficient quality will be considered for inclusion in the conference programme. Selected authors will be notified by 1st June 2011, and final papers should be submitted by the 31st August 2011.

Abstracts should include the following:

1. Title of paper
2. List of authors (with principal author first), stating title, first name, last name, job title and organisation represented
3. The abstract should be 300 words or less and should convey the work presented and the results obtained.

Email submissions should be in an easily readable format such as Microsoft Word. Authors submitting emails are requested to include a full postal address and telephone number. Abstracts should be submitted to j.bremner@sut.org

Author's Expenses

Authors are responsible for all costs incurred in the preparation and presentation of their papers, including travel, accommodation and associated expenses.

Concessions

First named authors/presenters will enjoy free admittance to the conference & free CD containing conference proceedings. Co-authors should register at the delegate rate.

Conference Papers

The proceedings of this conference will be compiled on CD.

Sponsorship

Sponsorship opportunities are available. Please contact Joyce Bremner, telephone +61 (0) 8 9446 9903 or email: j.bremner@sut.org for information.

Wallet Service

A wallet service will be available. This covers the opportunity for flyer and/or leaflets to be inserted into all the registration folders. Please contact Joyce Bremner, Tel: +61 (0) 8 9446 9903 or email: j.bremner@sut.org

KEY DATES

Deadline for Abstracts: 1st May 2011
Selected Author(s) will be notified by 1st June 2011
Final submission of papers: 31st August 2011
