

# Subsea Awareness Course

24th –28th May 2010

Parmelia Hilton Hotel, Fremantle Room

Mill Street, Perth, Australia

**SUT**

Society for  
Underwater  
Technology

This five-day Course has been designed to be suitable for contractors, engineers, operators and those new to the offshore industry, those transferring from other disciplines within the industry and those who have worked in subsea previously but would benefit from a refresher course and exposure to the latest technology.

Whilst most of the course will be presented in a 'classroom' environment, the sessions will be interactive, with the opportunity to ask questions and discuss what has been learnt. In particular, hands-on and visual components have been included wherever possible to enable delegates to view software models and products destined for subsea service.
